

Radonix PC+

Flexible & Easy to use Position Control

Features

Axes	Up to 4 axes (3 Interpolated)
Digital input	Up to 16 Isolated NPN input
Digital output	Up to 8 Open collector output
Analog output	1 Analog output with 10-bit resolution
PWM output	1 PWM output
Pulse rate	100000 Pulse per second
Pulse type	Pulse-Direction
Acceleration time range	100ms to 5000ms
Velocity profile type	Linear
Hardware buffer size	2000 Block FIFO
Handshaking time	20ms
Isolation type	Optocoupler
Data connection type	Isolated USB2.0 Connection
Data connection cable length	Up to 5m
Hardware lock	7 Time lock with internal time counter
Power	12v...24v - 200mA
Dimension	20cm x 12cm
Control type	Open loop position control
Accessory	Remote
