

# Installing other Languages

PhotoGrav now has the capabilities of running with different languages (ie Spanish). To install a language other than the default language (ie English) just follow the instructions below.

1. Locate the files **photograv.exe** and **pgdg.dll** on the Installation CD
  - a. Location on the PhotoGraV installation CD
    - i. [CD Rom Drive] \ Languages \ [select your language]
2. Select your language (ie Spanish)
3. Copy the files **photograv.exe** and **pgdg.dll**
4. Paste the files **photograv.exe** and **pgdg.dll** in the installation folder
  - a. Example location in the installation folder
    - i. C: \ Program Files \ ImageLaz \ PhotoGrav 3 \

You may do steps 1 to 4 any time you wish to change languages.
